

## **Subject: Cllr Dot Jones County Report**

### **Multi agency working**

I met with local pcso's and the arson reduction fire officer to discuss the ongoing issues of the disused showroom on Carmarthen Road, Crosshands, on-going discussions are now taking place with the site owners.

Meet the street was undertaken in Llannon with NPT and county enforcement officers highlighting the danger of pavement parking and driveway obstruction.

Skip days again pleased to receive support from the neighbourhood policing team (npt)

### **Planning**

Was pleased to meet with a resident and discuss Local development plan (ldp) at the session in Pontyberem Hall, remained after resident left to discuss further candidate sites and current sites in ldp.

### **Dyfed Powys Police and Crime Panel**

As a member of the finance subcommittee numerous meetings were held with the police crime commissioner to discuss this year's precept, with the commissioner taking on board the cost-of-living crisis and working hard to lower the precept before the report was presented in Haverfordwest Council Chambers for the full panel.

I also attended the commissioner's spring conference in Police HQ where we heard from lots of interesting speakers but particularly from the Deputy Chief Constable and the white ribbon work Violence against women and girls (VAWG)

### **Circular Economy Innovation Communities ( ceic)**

We are currently at the midpoint of this project; I am pleased to be working with an innovative group and looking to take our idea on to the Maes in the upcoming Urdd.

### **County Council**

As a member of multiple scrutiny, advisories panels and shadow cabinet my attendance currently stands at 29 recorded meetings, 100% attendance.

I was privileged to take the chair for an item during the full council meeting this month especially as it was International Women's Day showing how far we have come.

### **School Governor**

Cllr Gary Jones and I attended the spring term governors meeting at Tumble School, well done to the staff on an outstanding Estyn inspection.

### **Planning Enforcement Department Wales ( PEDW)**

I supported a resident at the recent enforcement hearing held in Spilman Street, Carmarthen, hopefully the inspector's decision will be delivered by the start of April.

## Ward work

I currently have multiple personal cases that are on-going, I have reported numerous potholes I'm pleased to say the A476 has been repaired along with the sunken manhole cover in front of Crosshands Working Men's Club.

I have reported faulty street lighting around the ward. Waited with the fallen tree in Cwmmawr. Was kindly invited to join and speak at a Mothers Union meeting.

Enjoyed an afternoon in Tumble Hall following the survey work of Mynydd Mawr Woodland Park. Attended the public meeting for The Great Mountain Working Men's Club.

I enjoyed a fundraising evening in Upper Tumble Social Club raising funds for the forthcoming Urdd in Llandovery.

A community meeting was held with Dame Nia Griffith joining me to support the group of residents.

I'm happy to answer any questions.

Kind regards

Dot
